PROFILE

I am a passionate Web Developer with a strong interest in creating modern, responsive, and user-friendly websites. I have experience with HTML, CSS, JavaScript, Laravel PHP and React.js, and enjoy turning creative ideas into functional web experiences. I am eager to learn new technologies, improve my skills, and build high-quality websites with clean and attractive designs.

WORK EXPERIENCE

Business & Corporate Websites

- Developed professional and modern websites for different businesses, including restaurant websites, corporate websites, and hotel websites. Created attractive layouts, service sections, contact pages, menus, booking interfaces, and responsive designs according to business requirements.

Real Estate & Property Websites

- Designed and developed real estate websites with modern property listings, property cards, images, details, search sections, and user-friendly navigation. Focused on creating clean layouts that make it easy for users to explore and view properties.

E-Commerce & Product Websites

- Created various e-commerce and product-based websites featuring product categories, product cards, promotional sections, shopping-style interfaces, and responsive designs. Developed visually appealing layouts that provide a smooth browsing experience across different devices.
